The Honorable Steve Bateman
Mayor of Homestead
City of Homestead
7900 N. Homestead Blvd.
Homestead, FL 33030

Dear Mayor Bateman:

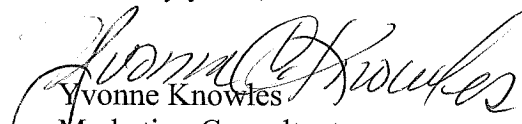

Thank you for taking time out of your busy schedule to recently visit Value Place Lodging in Homestead. It is very encouraging to new businesses in the area to have a visit from your honor. We welcomed the opportunity to show you our contribution to Homestead's ever growing need for guest accommodations.

As part of the extended stay concept, Value Place Lodging is designed for longer stays. Our studio suites are provided with an equipped kitchenette with full size refrigerator, microwave and stovetop, (dining and cooking utensils available upon request). In addition, each studio includes a workspace with computer data port, internet access, and local phone. Laundry facilities and housekeeping are also available. A newly installed full service generator provides complete emergency back-up when needed.

Our guests include temporary duty military personnel, visiting Turkey Point technicians, and tourists who are visiting the attractions of South Florida. We are respectfully requesting that the Homestead Trolley stop at our hotel so that we might provide them access to our local attractions, services and historic downtown. The benefit to the City would be in boosting the Trolley rider ship and allowing our visitors to connect to the rest of Homestead.

Can you help us in making this a reality? The address of the hotel is: Intersection of Campbell Avenue and Kingman Road, 2750 NE 8th Street. We are requesting a simple change to the existing route by having the trolley enter from either Campbell Drive or Kingman Road and circle in front of the hotel for a brief stop. Thank you for your kind consideration of this request.

Sincerely yours,

Yvonne Knowles
Marketing Consultant
